It takes customary Central know-how.
First, we start off with a big 5% interest.
Next, we compound that interest *daily*.
And finally, we guarantee the
whole package for 5 years.

That's how Central's 5% bank
interest grows to 5.68%

That's how, for example,
\$1,000 grows to \$1,284 in 5 years.
(A lot of interest on interest, a lot of
compounding, a lot of patience.)

**Little patience? You can take your
money out on any three-month
anniversary of date of purchase.
With full interest earned!**

And new Central Bank Growth
Certificates start as low as \$50,
which means you don't need
a bundle to get started.

For those who want interest at regular
intervals, there are popular Central
Bank Income Certificates. They
provide 5% interest paid by check
monthly, quarterly or annually.
They start at \$1,000, and may be
purchased for a minimum of 3 months
and a maximum of 5 years.

The insurance of the Federal Deposit
Insurance Corporation applies to
Central Growth and Income
Certificates in the same manner
as it does to Central Passbook
Savings and Checking Accounts.
The funds of each depositor are
insured up to \$15,000.

SPRING SONG OF ASPENS
by
Lillian White Spencer

*They tinkle laughter at the solemn hills
These dryad whisperers;
Mayhap, interpreters
Of miracles with which young April thrills;
Who babble gayly as the new waked rills,
And are the harbingers
Of nephyr roisterers
That revel, drunk on wine blithe May distills.
As dainty ballet girls
In pale green skirted twirls;
White slender limbs agleam; they dance all day
With sunbeams in a blue-arched house of play.
The merry vagabonds
Deck them with diamonds.*

*Ashimmer from the valleys to the snow,
Like children, mischievous,
They climb the hazardous
Steep ways and chatter, chatter, as they go.
What is the lovely secret that they know--
Wood nymphs so venturous
And frail, and tremulous
With quivering delight from top to toe;
The bright leaves, fluttering,
Are argent bells that swing
Some mystic high rejoicing to command;
Such chimes were surely cast in fairylands.
June's ecstasy are these
That men call aspen trees!*

The horns of the fondue dilemma

Where to put your fondue fork first? That's the delicious dilemma facing diners every evening at The Tower Bar and Fondue Restaurant, at Snowmass-at-Aspen.

For appetizers, the Cheese Fondue beckons. Traditionally Swiss. And filling. Can your appetite handle it? After soup and salad, the choice gets harder. Shall it be the Beef Fondue? Or the Shrimp? Or the special Fondue Oriental, combining sliced filet, veal and pork cooked on your table burner in a bubbling chicken broth. Finally, the dessert decision: can your calorie count allow the Chocolate Fondue? Decisions, decisions!

Put yourself on the end of a fondue fork at The Tower Bar and Fondue Restaurant. What you put on the other end will solve the dilemma of where to go for a special meal at a special place.

Equally unique lunches served outdoors on the West Village Square, with gourmet box lunches for picnickers and horseback riders.
