COLORADO CHESS TOUR UPDATE

by Randy Siebert

Only one event remains on the 1985 Colorado Chess Tour but exciting races are still underway. Only 'Most Actives' leader Larry Swartwood can clinch his award just by showing up at the Holiday Open. In every other category a poor result by the leader could allow them to be overtaken. If John Siddeek does win the overall, he will be the first 'nonmaster' to do so.

CCT prizes are based on Tour attendance throughout the year. Trophies go to 1st in each division along with %s listed below going out as cash. Donations to the Tour are tax deductible.

1985 U.S. Championship

by Dave Jellison

A mystical power sojourned at the Stanley Hotel in Estes Park from Oct. 21 to Nov. 5. This was not the hellish power seen in the movie "The Shining", but a mind-over-mind power emanating from fourteen of the very best U.S. Chessplayers.

Many of these fourteen were as colorful and dynamic as a crazed Jack Nicholson with an axe: Walter Browne with his showy swagger, hot temper and gambler's spirit; Max Dlugy with his young exuberance and cockiness; John Fedorowicz with a boyish smile on a rough New Yorker face; Kamran Shirazi who singlehandedly kept a sluggish event alive with his risky play and exciting tactics.

The Stanley was a good site, except that the lighting was so poor the rounds had to be played in daylight hours. This made it difficult for local players to attend except on weekends.

Jim Hamblin (who contributed ideas to this article) and I probably attended the most. We got to talk and play with the Masters a little. Larry Christiansen gave us a long sitting of 5-1 time odds at blitz, destroying us. Fedorowicz favored poorer with me, having to drop to a "mere" 5-2 time odds to win about half the games. Jim Nelson, Vance Aandahl and I had a drink with Lubosh Kavalek. Hamblin, Eric Anderson and I had a steak dinner with Browne. Certain Coloradans had good luck at poker and baseball bets against the Masters. I saw many other local players there, having a great time!

Once we discovered Christiansen and Dlugy playing a new variation of blitz, called "instantaneous chess". Each player must move right away, and if he is slow the other will shout "Move!". Dlugy was thinking a lot, so Christiansen was shouting a lot!

All in all, a wonderful experience! I regret that the spectator turnout was not better. Perhaps next year the Stanley can improve the lighting, allowing rounds to begin at 5 or 6 pm. Thanks to Frank Normali and the CSCA for bringing such a fine event to Colorado.

1986 U.S. CLASS CHAMPIONSHIPS

CSCA's bid for the 1986 U.S. Class Championships was successful. The tournament will be held October 3-5 at the Hilton Inn South just west of I-25 on Orchard Rd. near the Denver Tech Center. It will be 5 Rds, one Friday night, 2 each on Saturday and Sunday. Advance entry fee will be \$45. First place in each class will win several hundred dollars. This is the traditional format for this event. We would like to have as many Coloradoans participate as possible. Obviously, this is a high cost for the lower rateds. We would like to know specifically who amongst the lower rateds will not play because of the cost, but would play if we get USCF to agree to lower the prizes for them at the same time we lower the cost.

ROCKY MOUNTAIN POSTAL CHESS

The strong 1984 Colorado Postal Championships have ended with Mark Scheidies and Scott Nichols sharing the 1984 Colorado Postal Championship title by scoring 4-1. The 1982 finals are still in progress, though there is a formal time complaint being processed against Ken Krug and indications of communication problems between Lance Gill and Anthony Thomason. The following are crosstables for the 1982 Rocky Mountain and the 1984 Colorado postal chess championships:

ERIC ANDERSON COMMENTS:

In the April 1985 COLORADO CHESS INFORMANT Alex Fishbein gives this position as won for White. However, after 10...Kf8; 11 Bh5, B:a6; 12 Kd7, Kg7! (Alex gives 12...Bb7; 13 Kd8, a5; 14 Be8!!) ;13 Kd8 (If 13 Ke7 Black moves his king rather than lose a vital tempo with 13...Bc8.) Kf6; 14 Bg4, Ke5; 15 Bc8, Be2; 16 Bb7, Bg4; 17 Bc6, Kd6 draws.

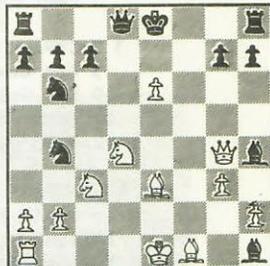

(Ed. note: The following game appeared on p. 15 of the April 1985 CCI. In commenting on the game, I stated I would like to see someone annotate it; and Eric has obliged.)

1985 Holiday Open; Hamblin-Anderson, ALEKHIN: 1 e4, Nf6; 2 e5, Nd5; 3 d4, d6; 4 c4

24 e7? (Correct is 24 Nf5!, when White is doing fine. He threatens Nh6+ forcing at least a draw; if 24...Bf3, then either 25 Qg3 or 25 Qh3. Black has resources, however, and if 24 Bh6?! then Black wins after 24...cd+; 25 K:d4, Rg1!) 24...cd+ (After this White's attack is insufficient.) 25 K:d4, Nf3+; 26 Kc5, N:g5; 27 hg, Re8; 28 Ne3, Rcl+; 29 Kd6, Rc6+; 0-1.

1985 Rocky Mountain Team Championships

A dozen teams competed for fun and glory in the Fourth RMTC held November 9-10 in Boulder. Last year's champions 'The Bad Check Bouncers' returned and became the first team to win back to back RMTC titles. The Bouncers (representing the Boulder Chess Club) featured James Hamblin, Eric Anderson, Paul Connors, and Team Captain Steve Dieckhoff. The team won all four matches and scored 14 1/2 - 1 1/2. Hamblin and Connors won their respective board prizes while Dieckhoff shared the Board 4 honors with Debra Johnson.

Placing tied for second were 'Chess Players in Bankruptcy' representing Storage Technology Corp and 'The Baghwans', an independent team. The best High School team was 'One Knight Stand', the best of three teams from Northglenn HS. Colorado Chess tour leader John Siddeek went 4-0 to win the Best Second Board prize.

A separate swiss section for individuals was also held the same weekend. New Colorado resident Robert Karnisky (2118) won the seven player 'Rion Swiss'. Five tied for second.

The team competition was, unfortunately, marred by bad weather. Those players who attended seemed to have a lot of fun. No one was concerned about winning big cash prizes and it was great to see four high school teams competing. Look forward to another RMTC next year - its a fun event for both players and directors.

OPTIONS IN THE Q. G. D. TARRASCH DEFENSE (Part 2 of 2)

by Dave Jellison

After 1 d4, d5 2 c4, e6 3 Nc3, c5 4 cd, ed 5 Nf3, Nc6 6 g3, Nf6 7 Bg2, Be7 8 O-O, O-O. This is considered the "Crucial" position.

Typical plans for White involve:

- A. exchanging with dc, leaving Black with an isolated Q-pawn (isolani) which, unattended by its peers, may become weak.
- B. coordination of minor pieces to blockade and/or win the isolani.
- C. control of the c-file, with subsequent occupation of c5 and perhaps control of the entire 5th rank.

Subtle points for White:

- d. generally, if White can force the isolated QP to its 5th rank, he stands well. If Black plays the move freely, then he (Black) may stand equal or better.
- e. be on the lookout for the possibility of switching play to the K-side with attacking chances on the Black K. The squares e4, f4, f5 can be good posts from which White N's spring to the attack.

Black's plans usually include:

- A. getting a well-supported d-pawn to d4, where it cramps the White center.
- B. maneuvering minor pieces to occupy key posts in conjunction with the central isolani. Typical key squares are c4, c5, d5, e4, e5 and sometimes b3 or e3.
- C. rooks to open files (particularly the K-file putting pressure on White's backward e-pawn).

Subtle points for Black:

- d. remove the Q from d8 when possible. The isolani should be guarded by a R, when Black's Q is free to roam to a5, b6, d6, e7, or e6.
- e. a timely ...h5-h4 may help to undermine the White K-side once the Black center has been solidified.
- f. watch for exchange sacs on the c6 N, especially when you've played ...d4 thereby opening up the h1-a8 diagonal for White's KB.
- g. early on, watch for chances to play ...b6, obtaining the "hanging pawns" on c5 and d5. Vs. certain White setups, these may be more advantageous than the isolani.

First, an explanation of markings, taken from ECO: !=very good move, ?=mistake, !=move deserving attention, ?!=dubious move, ==even position. From the diagram, White has in increasing order of popularity: A. 9 a3 B. 9 Bf4 C. 9 Be3 D. 9 b3 E. 9 dc F. 9 Bg5

- A. 9 a3?! intends 10 dc, Bxc5 11 b4; so here is the best argument for 9...b6! On 10 dc now Black recaptures with the b-pawn making the move b4 look impossible, and also making the b3 square seem weak.
- B. 9 Bf4 has been played by Korchnoi, and is a good, simple alternative to the popular but intricate 9 Bg5. ECO gives 9 Bf4, Bf5 10 Rc1, c4 11 Ne5, Rc8 12 h3 (?), Qb6 13 g4, Be6 as =, but 12 e3! fortifies White's center and threatens 13 g4 without a wasteful move of the h-pawn. For 9...Be6 see Game #1.
- C. 9 Be3. Now 9...b6!? 10 dc, Bxc5! is untried while 9...Ng4 10 Bf4, Be6 11 dc, Bxc5 leads to complicated play. A former "sure-draw" by 9...Bg4!? 10 dc (?), Bxf3 11 Bxf3, d4 12 Bxc6, de 13 Bxb7, ef ch 14 Kg2, Bxc5! 15 Bxa8, Qxa8 ch 16 e4, Nxe4 17 Qd5! = can be rudely aborted by Shamkovich's brilliant 10 Qa4!! e.g. ...Bxf3 11 Bxf3, c4 12 b3, cb 13 Qxb3.
- D. 9 b3 intending Bb2 is a highly positional treatment. Kasparov likes 9...Ne4! 10 Bb2, Bf6 with near equality. Also stopping White's plan (dc, Na4, Bb2) is 9...b6!? which would usually lead to Hanging Pawns, a "different animal" from Isolani positions.
- E. 9 dc is quite popular, though perhaps on the wane. Black's options here are 9...d4 10 Na4, Bf5 (the Tarrasch Gambit) and 9...Bxc5 10 Bg5, d4 11 Bxf6, Qxf6 12 Nd5, Qd8. See Games #2, 3, 4.
- F. 9 Bg5 develops a piece with indirect pressure on the c5, d5 and e4 squares. Now Black has 9...cd 10 NXd4, h6 (championed by Garry Kasparov and British GM Murray Chandler) or 9...Be6 10 dc, Bxc5. See Games #5, 6, 7.

THREE FROM THE VAIL OPEN

by John Siddeek

Have you ever had one of those tournaments where the same theme keeps cropping up in each game? The Vail Open was one of those for me. The advance of a rook pawn had (or should have had) a crucial impact in each of the following games. Years ago, when I heard that Bent Larsen had written a book about the strategic implications of rook pawns, I thought it was just more craziness from a crazy GM. Now I am not so sure.

In the first game below I missed the idea of advancing the "a" pawn, and nearly blew the win as a result. After I found the idea during the post-mortem, it dogged me for the remainder of the tournament, as is evident in the next two games.

Rd. 2 Siddeek-Fordon, English

1 c4 e5; 2 Qc2 Nf6; 3 a3 g6; 4 Nc3 Bg7; 5 e3 O-O; 6 b4 d5; 7 cd: Nd5;; 8 Bb2 Be6; 9 Nf3 f5? (Black has little to fear from White's experimental setup, but this overambitious move weakens the diagonal a2-g8 prematurely. 9...Kh8 or ...h6 look better.) 10 Nd5: Qd5: (on 10...Bd5; 11 Ne5: and 12 d4. Now if White snatches the pawn, 11 Qc7:, then Black comes out on top after 11...Rc8; 12 Qa5 Qb3; 13 Be5: (what else?) Nc6; 14 Qb5 Ne5; 15 Ne5: Qb2) 11 Ng5 Qb3; (on ...Kh8; 12 Ne6: Qe6;; White has both the simple 13 Bc4 and the greedy 13 Qc7:) 12 Rcl Qc2;; 13 Rc2: Bd5; 14 Bc4? (Trying to minimize Black's counterplay, but the direct 14 Rc7: was better, e.g. ...h6; 15 Nf3 Na6; 16 Ba6: ba;; 17 Ke2 Bf3;; 18 gf: Rf7; 19 Rlcl) 14...Bc4;; 15 Rc4: Bf6; 16 Ne6 Rc8; 17 Rc7: Na6; 18 Rb7: Rc2 (When making my erroneous 14th I had planned to reply 19 Bc3, "trapping" the rook. Imagine my chagrin upon realizing that 19...Rcl+ would then follow. Luckily, there is a resource...) 19 b5 Rb2;; (if ...Nb4; 20 ab Rb2;; 21 Ke2 Rb4;; 22 Rcl, or 21...Rc8; 22 Ra7: Rcc2; 23 Rd7 Rb4;; 24 Nc7 threatens both Nd5 and Ral, and if 24...R4c4, 25 b6) 20 ba: Kb8; 21 Ke2 (After the game, Bob suggested that trying to keep the pawn with 21 Rb8: would be better, but 21...Rb8;; 22 O-O Rb6; 23 Nc5 Be7; 24 d4 ed;; 25 ed: Bc5;; 26 dc: Ra6;; 27 Rcl Rc6 holds. Perhaps instead of 22 O-O, White should enter the complications after 22 Ke2 Rb6; 23 Nc5 Be7; 24 d4 Rb2+; but at the board giving back a pawn to activate my pieces seemed preferable.) 21...R8b7;; 22 ab: Rb7;; 23 Rcl Be7; (Probably better than letting White trade rooks with ...Kf7; 24 Rc7+. Black puts his faith in the dictum, "All rook endings are drawn.") 24 Rc8+ Kf7; 25 Nd8+ Bd8;; 26 Rd8: Ke7; 27 Rc8 h5? (...Kd6 looks correct, e.g. 28 Kd3 Rb3+; 29 Rc3 Rbl; and Black has good chances to draw. Now, after 28 Rc6 Kf7; White should play 29 a4 intending a5-a6, tying Black up.) 28 Rc6 Kf7; 29 h4? Rd7; 30 d3? (Advancing the a pawn is still correct) Rb7; 31 Kd2 Rb2+; 32 Rc2 Rb7; 33 d4 ed;; 34 ed: Ke6; 35 Kd3 Kd6; 36 Rc3 Rb2; 37 Ke3 Ra2; 38 g3 Kd5? (White has not played the ending well, and his best means of making progress, penetrating with his king to g5, will not be easy to achieve. Now, however, Black makes it easy.) 39 Rc5+ Ke6; 40 Ra5, 1-0

Rd. 3 Siddeek-Jellison, QGD Tarrasch

1 c4 e6; 2 Nf3 Nf6; 3 Nc3 d5; 4 d4 c5; 5 cd: ed; 6 g3 Nc6; 7 Bg2 Be7; 8 O-O O-O; 9 Bg5 Be6; (Normal is ...cd:) 10 dc: Bc5; 11 Bf6: gf:?!
(According to Gligoric, White is better after ...Qf6; 12 Nd5: Qb2; 13 Nc7 Rad8; 14 Qcl Qcl:; 15 Racl: Be7 16 Ne6: fe; 17 Rc4 Bf6; 18 Rbl Rd7; 19 h4. Dave suggested later the opposite colored bishops give Black good drawing chances in this line. When playing his 9th move, Dave didn't intend to accept an inferior ending, but rather to allow this weakening of his kingside. The point is that Black remains well placed to counter White's play along the c-file, while the kingside weaknesses are difficult for the first payer to exploit. Dave has defended this position successfully against several titled players, but it seems that by playing relatively normal moves, White can retain a significant advantage.) 12 Rcl d4; 13 Na4 Be7; 14 a3 Rc8; 15 Nc5 Bc5: (During the game, I thought this was a mistake, but how else can Black counter White's plan of Nd3-f4-h5?) 16 Rc5: Qb6; 17 b4 Rfd8; 18 Qd2 Rd5; 19 Rd5: Bd5; 20 Qf4 (If the f6 pawn were back home on g7, White would be in some difficulties here, since his Queenside would be vulnerable after 20...a5. Now, however, Black's entire opening strategy is called into question, since White's pieces are about to spring into action against his weak kingside. Black's reply, preventing Nh4-f5, is virtually forced.) 20...Bf3; 21 Bf3: Ne5; 22 Be4 Rc3 23 Qf5? (23 Rdl is much stronger, e.g. 23...Ra3; 24 Rd4: Ng6 (not 24... Qd4; 25 Bh7:+) 25 Bg6: fg; (if 25...hg; 26 Qb8+ Kg7; 27 Rh4) 26 Qb8+ Kg7; 27 Rd7+ Kh6; 28 Qf8+ Kh5; 29 Rd5+ f5; 30 Qe7, or if 24...Rc3; 25 Qd2 threatening 26 Rd6. Now Black should ignore White's threat and play 23... Rc6; 24 Qh7: + Kf8, and although White's h pawn is still dangerous, Black would save two tempi; on g6, the knight just gets kicked around.) 23...Ng6?! 24 h4 Qe6; 25 Rdl Qf5; 26 Bf5: Ra3; 27 Rd4: (The exchange of queens, a consequence of his faulty 23rd, prolongs White's task a little, but his kingside attack, based on the venomous h pawn, still works.) Rb3; 28 h5 Ne7; 29 Bd3 Nc6; 30 Rg4+ Kf8 (...Kh8 is a little tougher nut to crack, but 31 h6 Rb4; 32 Rg7 Ne5; 33 Rh7: + Kg8; 34 Rg7+ Kh8; 35 Bf5 Rb5 (if 35...a5, 36 f4) 36 f4 Nf3+; 37 ef: Rf5; 38 Rf7: does the trick.) 31 Bh7: Rb4; 32 Rg8+ Ke7; 33 h6 Rb5; 34 Bd3 Rh5 35 h7 Rh7; 36 Bh7: b5; 37 Rc8 Kd6; 38 Be4 Nb4; 39 Ra8 a6; 40 Bb7 Kc5; 41 Ba6: Nd5; 42 Bb5: Kb5: 43 Rf8 Kc5; 44 Rf7: Kd4 and 1-0

Rd. 4 Rea-Siddeek, QGD Tarrasch

1 d4 e6; 2 c4 d5; 3 Nc3 c5; 4 cd: ed; 5 Nf3 Nc6; 6 g3 Nf6; 7 Bg2 Be7; 8 O-O O-O; 9 Bg5 cd; 10 Nd4: h6; 11 Bf6: (The normal Be3 promises more for White.) 11...Bf6: 12 e3 Nd4; 13 ed: Be6 (Needing only a draw to clinch at least a tie for first, I was not unhappy to see this position, about which Gligoric comments "Black is a worrisome defender." Too worrisome, as it turns out, and too interested in that day's Bronco game--he almost lets White squeeze too much out of this dry position.) 14 Qb3 Bd4; 15 Nd5: Bd5; 16 Bd5: Qb6; 17 Qb6; ab; 18 Rfd1 Bb2: 19 Rab1 Bf6; 20 Rb6: Rfb8; 21 Bb3 Ra6 (Forced. Black, distracted by his interest in young Biff Elway's maturation as a pro quarterback, has landed in an inferior position, but now he creates a powerful "a" pawn to save the day.) 22 Ra6: ba; 23 Rd7 a5 (Not ...Rf8; 24 Ra7 and the "a" pawn falls. White's "a" pawn would then give Black problems, although the position is probably still drawn. Now I began dreaming of a black pawn on a3, a bishop on b2, and watching the entire second half uninterrupted.) 24 Bf7: + Kf8; 25 Bb3 Rd8; 26 Rf7+ Ke8; 27 Ra7 Bc3; 28 Kg2 Rd2; 29 Rf7?! (White, apparently unhappy with the consequences of 29 Kf3 Bd4, forgets about the awesome potential of the a5 pawn. But there is little to suggest in the way of winning tries.) 29...a4; 30 Be6 a3 (Now Black really is a worrisome defender.) 31 Rf3 Bb2; 32 h4 Ke7; 33 Bg8 Rd8; 34 Bb3 Rf8; 35 g4 Rf3; 36 Kf3: Kf6; 37 Ke4 g5; 38 hg: hg: Drawn (While I must confess this game is not of the highest quality, it does at least serve as a further illustration of the rook pawn theme. Besides, the Broncos won!)

FOULUPS, BLEEPs, AND BLUNDERS

by Brian Wall

(EDITOR'S NOTE: Brian Wall, former Colorado master now living in Texas, recently sent us a 30-page article containing some 12 games, some copiously annotated in Brian's wry style. Due to space limitations we will be publishing this treasure trove in installments over the next 3 or 4 issues.)

This article is about embarrassing blunders, outrageous swindles, and bizarre twists; in short, games which would rather be forgotten by at least one of the participants.

DENVER OPEN, 7/9/78, Rd. 5; Wall (2152)-Graham Layne (1617), DUTCH: 1 d4, f5; 2 Bg5, Nf6 (2...g6 is currently considered best.) 3 B:f6, gf?; 4 e4, h5; 5 Be2, Bh6; 6 B:h5+, Kf8; 7 ef b6; 8 Bf3, Nc6; 9 Ne2, Bb7; 10 0-0, e6!! (Do you see Black's brilliancy? I didn't.) 11 fe, de 12 Nc3, Qd6; 13 Ne4?? (The single most embarrassing move I've ever made, not only missing the threat but encouraging it.) Q:h2+!!; $\frac{1}{2}$ - $\frac{1}{2}$!!

A year later I got revenge.

AL WALLACE MEMORIAL, 3/3/79, Rd. 3; Layne (1674)-Wall (2045), FROM GAMBIT: 1 f4, e5; 2 fe d6; 3 ed, B:d6; 4 Nf3, g5; 5 d4, g4; 6 Ng5, f5; 7 e4, h6; 8 e5, Be7; 9 Nh3, gh; 10 Qh5+, Kf8 11 Bc4, Rh7; 12 Qg6, Bb4+; 13 c3, Rg7; 14 B:h6, Qh4+; 15 Kd1, Q:h6; 16 Q:h6, N:h6; 17 cb, hg 18 Rg1, Nc6; 19 Nc3, N:d4; 20 Bd5, Ng4; 21 Kd2, N:h2; 22 B:g2, Nhf3+; 0-1.

The curious thing about this game is that it is almost all book, and not that easy a line to remember. It seems that my opponent memorized everything but the final evaluation!

WEDNESDAY NIGHT CLUB TOURNAMENT, 4/20/80, Rd. 4, ANDERSSSEN, Wall (2045)-David Jellison (2211) 1 a3, b6; 2 c4, e6; 3 d4, c5; 4 Nf3, Nf6; 5 e3, Na6; 6 Nc3, Bb7; 7 Bd3, Rc8; 8 0-0, cd (This was the last round and Dave had just made master, so I expected a long, tough fight. My sixth sense told me that Dave was considering a blunder, so I played my next move instantaneously to encourage him. Just the sort of cheap play you forget about when you're out of practice.) 9 ed, d5??; 10 cd (Due to White's threat of 11 B:a6, B:a6; 12 Qa4+, Black has lost a good center pawn for nothing, but his next move is even worse.) Qd7??; 11 Bb5, 1-0.

How can a master lose in 11 moves? Dave is a fine player and a good friend. In 1977 he and I were Colorado Open Co-champions. I've played more rated games with Dave than any other player; four matches and countless tournament games with roughly even results. But once in a while we come up with real bloopers.

MATCH 3, Game 3, 9/21/80, Wall-Jellison, ALEKHIN DEFENSE: 1 e4, Nf6; 2 e5, Nd5; 3 d4, d6 4 Bc4 (4 Nf3, g6; 5 Bc4, Nb6; 6 e6? (an offhand suggestion of Gregory Steele, Colorado's leading theoretician) is refuted by 6...N:c4; 7 ef+, K:f7 (7...Kd7; 8 b3!, Nb6; 9 Ne5!-Steele) 8 Ng5+, Kg7! (8...Kg8; 9 Qf3!-Steele) Nb6; 5 e6?? (An atrocious recommendation of IM Pickett's) N:c4; 6 ef+, Kd7 (An earlier game Hamblin-Wall had continued 6...K:f7; 7 Qf3+ Ke8; 8 Qh5+, g6; 9 Qb5+, Qd7; 10 Q:c4, Qc6 (10...Qe6+ - Pickett or 10...Qg4! - Spelman are alternatives.) 11 Q:c6+, bc?! My two bishops didn't amount to anything and Jim completely outplayed me. It was on the basis of this game and post-mortem that I decided to risk it against Dave.) 7 Qg4+ (If 7 d5, Ne5-f7) e6; 8 Bg5?? (I "found" this move on my own, but when I looked up Pickett's analysis last week, I was shocked to discover he also recommended this hideous blunder!! White must play 8 d5, Qe7 and choose between 9 Q:c4, ed+, 10 Qe2 or 9 Bg5 Q:f7 (9...h5; 10 Qf4, e5; 11 Qf5+) 10 Q:c4, ed, in either case with dubious compensation for a pawn.) h5! (Now White can't get his piece back! I was expecting 8...Be7; 9 d5, Qf8!; 10 Be7 (10 det, Kd8; 11 B:e7, Q:e7; 12 Q:c4, Q:e6+ or 12 B:e6) Q:e7; 11 Q:c4, ed+; 12 Qe2 which isn't very good anyway. My stomach turned in disgust and pain as I slowly confirmed that I was down a piece in eight moves against a master. Remembering our eleven-move game, my first inclination was to do Dave one better and resign on the spot. But then a strange calm came over me. I reckoned that I had one pawn for the piece, his uncastled king was worth another pawn, and so how could I resign only one point down? I remembered the words of Gentleman Jim Corbett, a World Champion boxer: "No matter how bad your opponent is beating you, as long as you force yourself to stand up and throw one more punch, then you can never really be defeated." Finally, I remembered the story of the Indian and the Elephants. A mighty king in India had three elephants. He offered a great reward and free lodging at the palace to anyone who could teach them to talk in ten years. One man took the offer. His friends visited him in the elephant yard to see if he was mad. He replied, "Many things might happen in ten years. I might die, the elephants might die, or the elephants might learn to talk.") 9 Qf4, Be7; 10 h4, c6 (That's a strange move, I thought, what's he up to? He probably wants to play ...Qa5+ and ...Qf5, activating his queen. I prepared myself as best I could, than played my next two moves quickly, while trying to affect the facial expression of a lobotomized St. Bernard.) 11 Nc3, Qa5; 12 Nge2, Qf5; 13 Q:f5, ef; 14 Nf4 (The threat of 15 B:e7, K:e7; 16 Ng6+ wins back some material.) Rf8 (On 14...B:g5 I intended to confuse the issue with 15 hg since 15 Ng6, Bd2+ looked worse.) 15 Ng6, R:f7; 16 N:e7, R:e7+; 17 B:e7 K:e7; 18 0-0-0, Na6; 19 Rhe1+, Kf7; 20 d5 (When losing, trade pawns, not pieces!) Bd7; 21 dc B:c6; 22 Nd5, Rd8; 23 Nf4, Nc5; 24 b3, Nb6; 25 f3, d5; 26 N:h5, Ne6; 27 Ng3, f4; 28 Nf5 (Despite all my tricks I was still lost, so I let my clock run down to five minutes in the hope that he would start playing faster.) d4; 29 h5 (I noticed a three-move gap in Dave's score sheet, so I let myself fall hopelessly behind in time, down to 20 seconds. If he filled in his score sheet now I was dead, but he just sat patiently waiting for my flag to fall.) Kf6; 30 Nh4, Nd5; 31 Ng6, Ne3; 32 Rd2, Rd7 (My plan was working. Dave was now blitzing his moves. Just make one mistake, Dave, and I'll let my flag fall, I prayed.) 33 c3, d3 (At this point the game became surreal. It looked like I had a good choice between 34 g3 and 34 N:f4, so I let my time run out, Dave claimed the forfeit, I showed him the gap, and Dave started to correct his score sheet. Then he noticed that he had not missed any moves, he had simply put his 28th move in the space for the 31st and continued from there. We were playing the game at the Denver Chess Club, and the kibitzers were arguing that Dave's original claim should stand. I pointed out that he had tampered with his score sheet by now, it was unclear whether a move written in the wrong space was legal, and that I would never have gotten in such bad time pressure if I thought his score sheet was correct. * Dave seemed more interested in the position than the dispute, so I gave him five minutes to decide whether he wanted to continue playing or take his claim to USCF. I threw in a draw offer for good measure. During the next five minutes we both discovered that Black still had the advantage, so we kept playing.) 34 N:f4, N:f4; 35 R:e3, Rd5; 36 Kb2, Rg5; 37 c4, N:g2; 38 Re:d3, Ne1; 39 Rd6+ Kf5; 40 h6! (Eliminating the g-pawn. The position is drawn at last! In the background I heard the murmuring of elephants.) N:f3 (If 40...g6; 41 Rh2); 41 Rf2 (Threatening 42 R:c6) Ke4 42 Re6+, Kf4; 43 hg, R:g7; 44 Kc3, $\frac{1}{2}$ - $\frac{1}{2}$. So I pulled it off, but I would like to remind the reader that Dave has played many brilliant games and beaten me many times.

* EDITOR'S NOTE: I would rule this a time forfeit, as Black had a record of the entire game at the moment the flag fell. The "tampering" with the score sheet is irrelevant, and White's claim that he would "never have gotten into such bad time pressure if I thought his score sheet was correct" is ridiculous.

GERASH MEMORIAL OPEN

Despite several requests, we have not received a crosstable on this tournament. If anyone would like to give us a report on it for a future issue, we would appreciate it. In the meantime, here are some games from the tournament submitted by Eric Anderson, Ken Case, and Anthony Thomason.
